Sir:

The following is responsive to the Office Action mailed on or about August 1, 2002.

IN THE CLAIMS:

(A marked-up version of the amended claims is attached to this Amendment.)

Amend Claims 1, 3 and 10 as follows:

a/b 1. (Amended) A seal mechanism, comprising an annular retaining member, a flexible member molded in one piece with the retaining member and having a flexible tip to perform a sealing function, and a stress reduction mechanism for reducing the stress generated in said flexible member constituted.
